Office Memorandum • UNITED STATES GOVERNMENT

TO : The Comptroller

DATE: DEC 11 1953

FROM : Acting Chief of Logistics

SUBJECT: Financial and Accounting Procedures for Property

25X1

Proceedings & Accounting Procedures for Property

1. Reference is made to page 104 of the Handbook on FINANCIAL AND ACCOUNTING PROCEDURES FOR PROPERTY, effective 1 December 1953.

25X1

2. This Office does not deem it advisable to record in the property records of the Supply Division the transactions which reflect acquisitions from Armed Services overseas by overseas elements not under control of Supply Control Center, in the same manner as direct shipment acquisitions at Headquarters level. The work load involved in cataloging and identifying items received would not be justified in view of the limited value to be derived from these records. The receiving documents and the attached 1080's represent actions which are anywhere from two months to one year of age, and this information would be outdated for current stock status purposes on any logistical analysis.

3. It is therefore recommended that the following method be utilized for recording this type of action:

a. These transactions may be recorded as direct shipments under new transaction code 9-6, which would represent direct shipments to overseas stations from Armed Services overseas with payment effected by Headquarters. Under a nonsignificant item identification stock number 9999-999-9999, this recording would have no significance from a logistical standpoint other than to reflect the receipt and immediate reissue of the total dollar value of the property indicated on each document or group of documents.
